

Grading System

Input file: `standard input`
Output file: `standard output`
Time limit: 1 second
Memory limit: 256 megabytes

You are given an integer s representing a student's score.

The grade is determined as follows:

- If $s \geq 90$, print **"A"**
- If $80 \leq s < 90$, print **"B"**
- If $70 \leq s < 80$, print **"C"**
- Otherwise, print **"F"**

Input

The only line contains an integer s ($0 \leq s \leq 100$).

Output

Print the grade of the student.

Examples

standard input	standard output
84	B
74	C
65	F
