

Saad’s Digit Game (1)

Input file: standard input
Output file: standard output
Time limit: 1 second
Memory limit: 256 megabytes

Saad is playing a digit game.
For any positive integer x , Saad defines $S(x)$ as the sum of the digits of x .
He chooses two integers L and R , then writes down all numbers from L to R inclusive.
Your task is to help Saad compute the total sum of $S(x)$ for all written numbers.

Input

Single input line which contains two integers L and R ($1 \leq L \leq R \leq 10^5$).

Output

Print a single integer equal to:

$$S(L) + S(L + 1) + \cdots + S(R)$$

Examples

standard input	standard output
1 1	1
100 105	21
